

This guide describes the process of installing Citrix remote desktop services that allows staff and students to run a virtual College PC on an iOS device (iPad and iPhone).

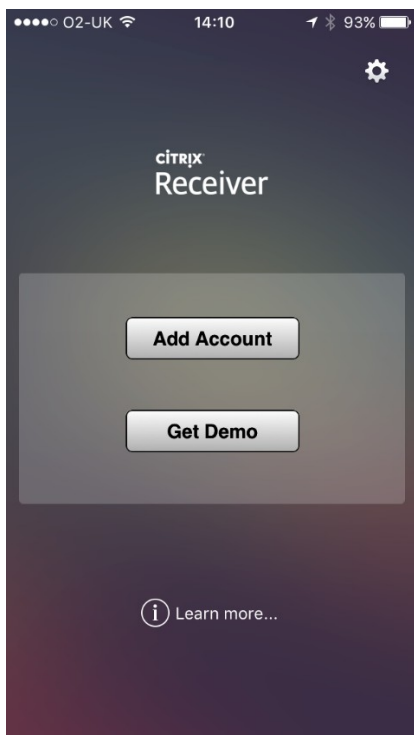

It is important to follow the guide in its entirety, clicking the options described and not skipping any steps.

Installation

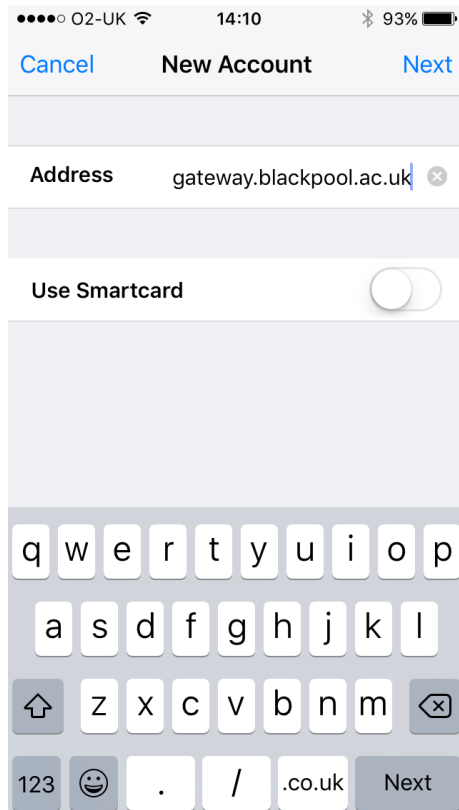

Step 1: Open the Apple app store on your iPhone / iPad and search for “Citrix Receiver”

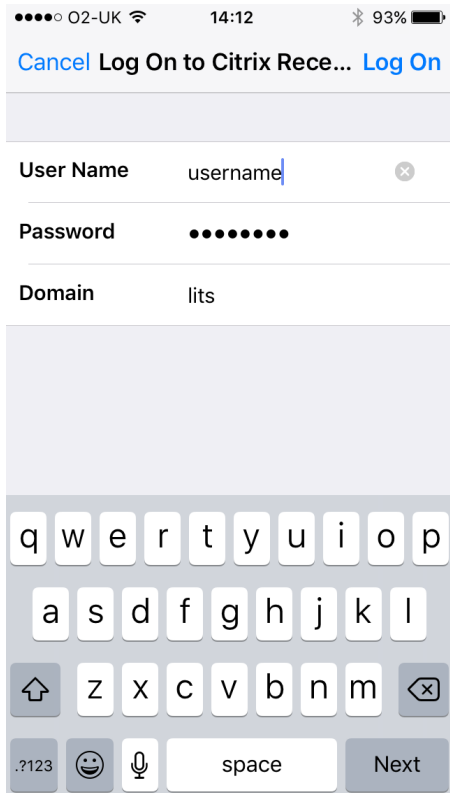

Step 2: Install the app

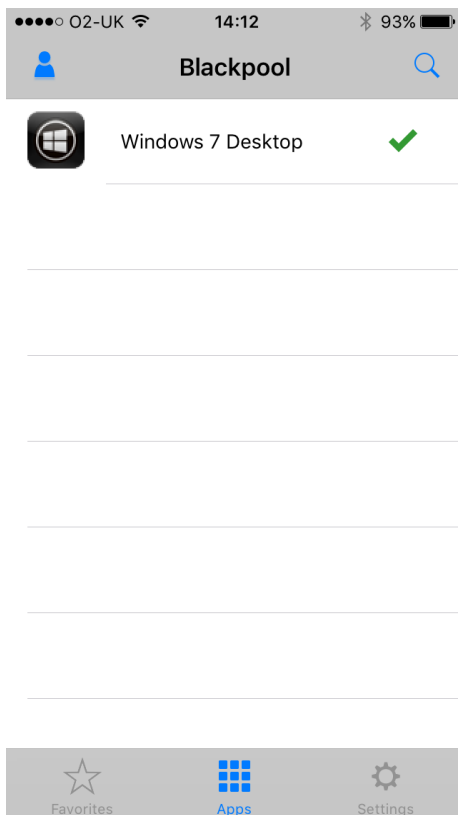

Step 3: Click Add Account, and type in the Address “gateway.blackpool.ac.uk” then click Next

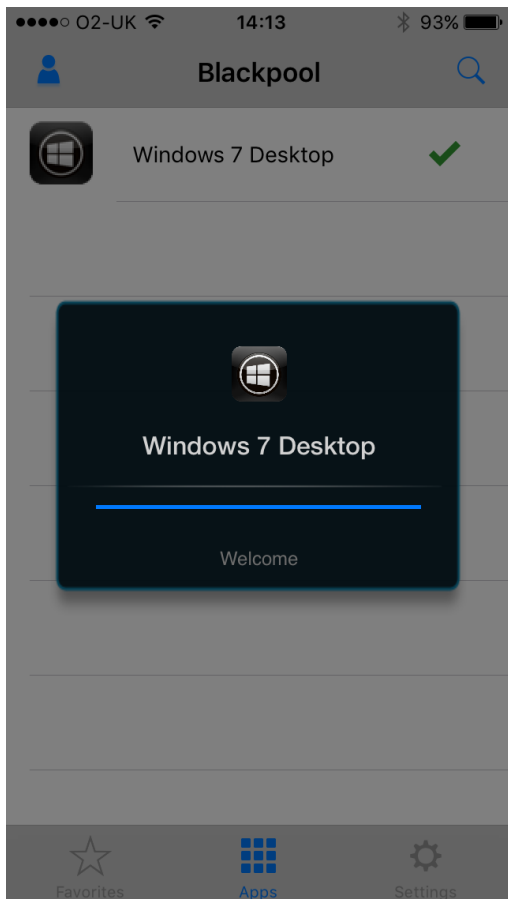

Step 4: Enter the User Name and Password you would use to log into a College PC and in the Domain box type “lits” and press Log On

Step 5: Click on the Windows 7 Desktop link

Step 6: The software will launch a virtual College PC desktop

Step 7: The virtual College desktop

Step 8: Once you have finished please click on the start menu and click Disconnect and then Yes on the confirmation dialog box
